

# Rio SWIM SPAS™

PIONEER OF SWIM 'N' SPAS - PHYSIO THERAPY SPAS

**Rio SWIM SPAS™** manufactures a variety of physical fitness SwimSpa models that do it all!

Each model was created to be an ideal aquatic physical fitness center designed to conform to small areas, either inside or out: gardens, garages, porches, patios, courtyards, etc.

By pushing a button, the powerful **AquaSwimJets** convert swimming sections to challenging workout areas for swimming, aqua jogging, water aerobics, physical therapy and physical rehabilitation.

The Rio SwimJet models include the deeper **AquaPhysioTherapy Spa**, the **AquaSwim 'n' Spa** combination model, with separate controls for each section, the **AquaSwimmer**, and the **AquaSpa Rio Grande**, a spa that can seat 12 to 14 people. This model is most often used in physical fitness centers and hotels.

### All-In-One AquaSwimJet

Recessed wall AquaSwimJet assembly includes: self-contained suction unit, return and recessed wall AquaSwimJet with new flow control nozzle.

### AquaPowerPac
