Signature Features

- High Efficiency HEPA Filtration System treated with Ultra-Fresh™ designed to kill 99.9% of the microbial growth on the filter to eliminate odour.
- Largest Motor in the Industry @ 8.4", Tangential Bypass motor by Lamb® built for performance and longevity with Infinity™ Brush Technology rated for 50% longer life expectancy.
- Hybrid Flexibility, choose either the convenience of high efficiency bag or bagless option. 3-Pack Included.
- Quiet Operation, sound pack with muffler.
- Lifetime Limited Warranty.

Cana-Vac Signature™ models are designed with longevity in mind. Using only premium Tangential Bypass motors, Signature models are the best choice for families with larger homes where vacuuming is more frequent or duration is longer.
