

Condensing Modulating Triangle Tube Challenger-Combi Boiler/Instant Hot Water Heater

TriangleTube
Challenger COMBI
Combination High Efficiency Boiler and Domestic Water Heater

HEAT and Hot Water
.... TOGETHER in one Appliance

Features

- High Efficiency - 95% AFUE
- Inputs to 124,000 Btu/hr
- Whisper Quiet
- On demand plentiful Hot Water
- Eliminates need for DHW Tank
- Reliable - 10 year Heat Exchanger Warranty
- Low NOx
- DHW Low Lead Content Certified

CONDENSES IN BOTH SPACE HEATING AND DOMESTIC HOT WATER MODES

TriangleTube
Challenger COMBI
Combination High Efficiency Boiler and Domestic Water Heater

HEAT and Hot Water
.... TOGETHER in one Appliance

Features

- Boiler Efficiency - 93.5% AFUE
- Water Heater Energy factor - Up to .87
- Inputs to 124,000 Btu/hr
- Whisper Quiet
- On demand plentiful Hot Water
- Eliminates need for DHW Tank
- Reliable - 10 year Heat Exchanger Warranty
- Low NOx
- DHW Low Lead Content Certified

CONDENSES IN BOTH SPACE HEATING AND DOMESTIC HOT WATER MODES

The gas boiler and hot water heater is quite small and efficient. Although I purchased it expecting 96% efficiency, an EPA retest reduced that to 90%. This Challenger boiler is dual purpose so an inexpensive solution for our needs. The powered exhaust, outside air in-take, and outdoor temperature modulation are great features.
